July 20, 1915.

NOTES.

1. The exportation of certain articles direct to Allied countries, *in Russian or Allied vessels*, is authorised without special application in the case of each consignment. These articles are: maize, colza oilcake, bran and oilcake of all kinds; bacon, butter, dead poultry and game, live poultry eggs, intestines, fish, tobacco of the first quality (certified by excise), wood materials, oilseeds, clover seeds and other forage seeds, furskins, except sheepskins and goatskins.

With regard to the export of these goods to Allied countries direct in *neutral ships*, special guarantees have to be obtained each time from the neutral Legation in Petrograd, in agreement with the British Embassy (if the articles are going to the United Kingdom direct), that the goods are proceeding to the Allied countries named and will not be re-exported to an enemy country.

The exportation to the United Kingdom of butter, game, poultry (dead), eggs and bacon, is authorised, without special authorisation in the case of each consignment, if the goods are despatched (from the Finland Station, Petrograd) by the "direct overseas Scandinavian route," *i.e.*, via Rango or Montyluoto.

2. Exceptions from the prohibitions of export may be made by the Minister of Finance in favour of Allied and friendly countries on separate application in the case of each consignment, apart from the exceptions already referred to in Note 1.

3. The exportation of goods of all kinds is prohibited from Baltic ports situated in the Governments of Petrograd, Esthonia, Livonia, and Courland. The Gulf of Finland and the Gulf of Riga are closed to overseas (*etc.*, foreign) navigation.
